# QUALITY POLICY

Subsea Engineering Associates (**SEA**) is a Western Australian company specialising in the provision of projects and engineering services.

SEA is committed to operating, maintaining and continually improving its quality system in accordance with Australian Standard AS/NZS ISO 9001:2015. This policy will be reviewed and approved by the Managing Director on an annual basis.

## Quality Management System

The SEA Quality Management System (QMS) demonstrates the commitment to successful implementation and delivery of quality throughout the organisation, meeting the needs of regulatory authorities, customers and employees. This is achieved by adherence to documented processes, implementation of effective corrective actions, setting quality objectives, periodic reviews by senior management and continuous improvement.

SEA ensures this policy is visibly displayed and the QMS is understood by all company employees in regular training sessions. In addition, individuals are empowered to be responsible for the quality of the work they perform.

It is mandatory for all employees to comply with the requirements of the QMS to ensure the ongoing success and future competitiveness of the company, along with employee satisfaction.
